FOR IMMEDIATE RELEASE:

Chapel Hill, NC – Investors Title Company today announced its results for the fourth quarter and year ended December 31, 2015.

For the year, net income attributable to the Company increased 29.9% to \$12.5 million, or \$6.30 per diluted share, versus \$9.6 million, or \$4.74 per diluted share, for the prior year. For the quarter, net income attributable to the Company decreased 18.5% to \$2.2 million, or \$1.12 per diluted share, versus \$2.7 million, or \$1.33 per diluted share, for the prior year period.

Revenues for the year reached \$127.2 million, a new record for the Company, which represents an increase of 3.3% versus the prior year. Growth in premium revenues was driven primarily by growth in real estate values, higher levels of home sales, and to a lesser extent, higher levels of refinance activity. Revenues from direct operations comprised 25.3% of premiums for the year, up from 21.9% last year.

Operating expenses were \$109.4 million, and remained virtually flat with the prior year. Commissions decreased 5.3% due to a favorable mix of direct business. Claims expense, which continues to benefit from the absence of large claims related to defalcations in recent policy years, decreased 14.4% versus the prior year due to fewer new claim filings. Payroll expenses increased 11.2%, due to normal inflationary increases in wages and benefits, higher staffing levels supporting ongoing software development activities, and higher levels of incentive compensation. All other expenses increased 8.7%, mainly due to higher transaction volumes and increased software development activity.

For the quarter, revenues decreased 9.6% versus the prior year period, which can be attributed to lower levels of premiums written in the Texas market, partially offset by growth in other markets. Overall, transaction volume increased substantially versus the prior year period, with increases in both purchase and refinance activity. Operating expenses decreased 8.5%, primarily due to the impact of lower Texas volumes on commissions, as well as overall favorable claims experience. The lower commissions and claims expenses were partially offset by increases in other expense categories, mainly due to the same factors that influenced results for the year.

Chairman J. Allen Fine commented, "I am pleased with the Company's strong results for both the year and the fourth quarter. The record level of revenues we achieved in 2015 is the result of a strong real estate market as well as our continued efforts to develop relationships in the markets we serve."

"Revenues in the fourth quarter held up well, considering potential impacts of the new federally mandated disclosure requirements that went into effect during the quarter, as well as the Fed's first rate hike in almost a decade. In addition, we successfully reached key milestone objectives in our technology program, while investing significant energy into preparing ourselves and our clients for implementation of the new mortgage disclosures."

"We are optimistic that the strong housing market will continue into 2016, with potential improvements in both transaction levels and home prices," added Mr. Fine. "For the coming year and beyond, we will remain focused on long-term strategies to enhance our competitive strengths and financial position, and to profitably expand our market presence."
