Register: Register your individual account once through the top menu "Register" link.* DO NOT check the box "I am an employee of an Investors Title agent." Click the "Create Account" button when finished.

View Course: Once your account is registered, you may begin adding courses to your classroom and viewing content.

- Go to "Online Courses" in the top menu and select the desired course. Complete the purchase/checkout process. For courses with a fee, credit cards are the only form of payment accepted. You will receive an emailed receipt of the transaction.
- Once purchased/checked out, the course will appear under "My Account" in the "My Classroom" section accessed from the top submenu.**

Confirm Completion: After viewing the course, obtain a completion certificate by going through the "Certify Credit" process. Under "My Account" select Certify Credit from the secondary menu. Please note that continuing education credit <u>is not</u> available. This process simply provides a completion certificate for your records.

*Viewing content as a group is possible; however, record of completion is tied to an individual account only.

**Unless discontinued, a course will remain in your classroom for viewing for one year from the date of being purchased/checked out.
