

One Company - Two services to suit your needs

Echoworx is a leading provider of email encryption solutions that protect confidential information communicated with clients. As an ALTA member itself, Echoworx has been working with numerous underwriters to provide email encryption solutions to the title industry.

Echoworx offers two solutions that specifically meet the needs of settlement service providers.

Which solution is right for me?

GoEnbox is a fully hosted webmail interface that allows you to send encrypted email. Simply register using your existing email address and send emails and documents securely to your clients.

GoEnbox is for you if:

- ▶ You use free webmail for your company email address (Gmail, Yahoo, AOL)
- ▶ You send confidential information to clients and lenders
- ▶ You have less than 10 employees

Benefits

- ▶ Affordable email encryption: Only \$49.95 per email address per year
- ▶ Exchange documents up to 100MB in size
- ▶ Reporting and administrative functions to prove compliance
- ▶ Log in to GoEnbox to only send encrypted email

To learn more, please visit www.goenbox.com. An online video explains the sending and receiving process and payments can be made online at your convenience. On the payment form, select Investors Title under Affiliate Partner for an additional 15% off your purchase!

For any additional questions, please contact info@goenbox.com.

Echoworx's OneWorld solution empowers organizations to encrypt emails and documents and deliver secure emails in a manner most convenient for the recipient. This means fewer steps for your clients to receive an email and can eliminate the need for passwords.

OneWorld is for you if:

- ▶ Your corporate email is with Microsoft Exchange, Google Apps for Business, or Office 365
- ▶ You send confidential emails regularly with Microsoft Outlook
- ▶ You have more than 10 employees

Benefits

- ▶ Seamless sender experience - emails can be encrypted manually with a button or automatically via policy
- ▶ Customized branding and encryption options to meet different needs of your business
- ▶ Supports multiple delivery methods: TLS (no passwords), Secure PDF, and Web Portal
